

Weekly Submissions

The screenshot displays the GenAI IDE interface. On the left, a sidebar contains navigation icons and a 'Tables' section with a list of tables: 'New Table', 'AttendeeTable', and 'Feedback'. Below this is a 'Variables' section with a 'New variable' button and a description: 'Use variables to track user interactions and store information for later. The variable scope controls where each variable can be accessed.' At the bottom of the sidebar are links for 'Tutorial Video' and 'Documentation'.

The main workspace is divided into two panes. The left pane shows a table with the following data:

#	Created At	Updated At	Name	Email
1	6 minutes ago	6 minutes ago	Milo	lalomilov@spc.int
2	Moments ago	Moments ago	Tima	timar@spc.int

The right pane shows a chat window with a message from the user: 'Great! To register you for the showcase event, could you please provide your full name and email address?'. The assistant's response is: 'You have been successfully registered for the showcase event, Milo! 🎉 A confirmation will be sent to lalomilov@spc.int. If you have any other questions about the GenAI course or Milo Varea's background, feel free to ask!'. The chat window also includes buttons for 'Inspect', 'Improve Response', and 'Logs'.
